“ I was fresh out of university and looking for opportunities in the accounting industry when a friend recommended H&R Block's Income Tax Course. I found the course very adaptable and suited to each person's lifestyle, as I was running a courier business on the side while completing it. After the course, I gained a solid understanding of tax laws and was given the opportunity to work at H&R Block as a Tax Consultant. The biggest benefit of working here is the flexibility, with constant opportunities to learn new things and grow into a role that suits you. ”
